FINANCIAL.

SAFE, PROFITABLE INVESTMENTS.

An Iowa bank cashier says: "My observation and experience for the past twenty-five years convinces me that things considered, the best investment of money is in the purchase of real estate and the purchase of bonds of responsible loan and trust companies, secured by first mortgages on property, or the purchase of the best securities offered by the market."

The president of one of the largest banks in the country says: "I have never yet found any investment that was permanently good that would yield an income that was not small. Five per cent. investments of bonds of responsible loan and trust companies are good enough for me."

Judicious investments have made poor men rich, and bad investments have made rich men poor.

The Debenture Bonds issued by this company have many advantages which make them to all conservative investors. They are issued in sums of \$100, \$500 and \$1,000 each, and are secured by real estate first mortgages, held by real estate and title insurance company of this city as trustees for the bondholders, and are further secured by the assets of this company and the funds of the company's shareholders. The interest is payable semi-annually and the bonds require no attention whatever from the holder.
